Report on Educational Trip to "Jim Corbett National Park" on  
Virtual Platform (1<sup>st</sup> January 2022)

---

"Save Wildlife, Save Future"

To create awareness and develop a positive attitude towards environment, an Educational Virtual Trip to Jim Corbett National Park was planned for Eco-Club Students of classes III-V on 1<sup>st</sup> January 2022.

The tour commenced with a briefing by a naturalist on the rich biodiversity of the area. The students enjoyed watching the informative video on the same. They were delighted to go on a Jungle Safari, which was a wonderful experience. Students observed the vast collection of flora and fauna through wildlife.

It was a good learning experience for them.
